
How to monitoring IP POS Terminals

Posted by DBorgs - 2005/04/25 20:38

Hi,

Can anyone point me in the direction of a good monitoring tool, that I could deploy to monitor POS terminals, I liek to know about a product, how it works.

bye

What exactly are you looking to monitor -- totals per day by Virtual POS (VPOS) terminal, detail of transactions that have been processed through a VPOS terminal, what a clerk is currently doing with a VPOS terminal?

You may also want to consider whether or not a VPOS terminal is necessary as many of the VPOS providers have integration options which may make your original question moot.
