
Liability shift rules with 3DSecure and UCAF/SPA

Posted by Editor - 2006/04/03 16:17

I am in the process of writing a paper on the adoption of buyer authentication payment methods by merchants (barriers and facilitators) and would like to solicit your help in clarifying the liability shift rules as you understand them. I would appreciate you helping me to confirm your understanding of any issues related to 3DSecure and UCAF/SPA.
